A UNIQUE, MINIMAL, AND INNOVATIVE DESIGN FOR THE WALL-MOUNTED DISPENSER, CONNECTABLE INDIVIDUALLY OR IN SERIES.

Maximum elegance and functionality for offices, residences, high-end apartments, and condominiums. Made of stainless steel and anodized aluminum.

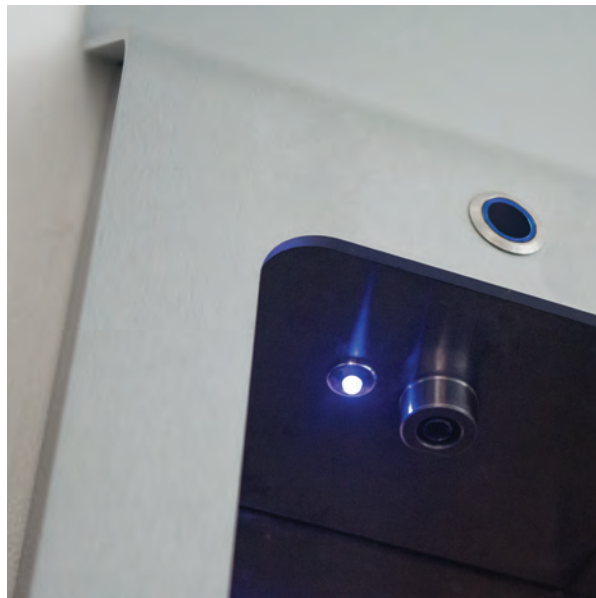

Perfect for schools, hospitals, and any situation where floorstanding coolers cannot be installed due to safety or hygiene reasons. Available with 1 or 2 stainless steel dispensing buttons or in the "touch-free" version.

Unique design in a small space.

No floor space taken up and a unique design: Wall is the solution that guarantees elegance and functionality in hotels, residences, prestigious condominiums, and public buildings. Available with 1 or 2 stainless steel dispensing buttons or in the "touch-free" version.

Hygiene and safety with "Touch Free".

Thanks to innovative infrared technology, just place your finger 1.5 cm away from the panel to get the desired water and remove your finger to stop dispensing. No contact with the dispenser for maximum hygiene!

The embedded version: Wall Built-in.

It is the embedded version of the Wall dispenser. Even more minimal in design, as well as in size, Wall Built-in is a truly perfect solution in any environment.

Every power for every need.

Wall can be connected to any undercounter cooler, such as those in the Blupura BOX range, designed to discreetly and functionally fit inside technical rooms.

Wall is the ideal solution even when, for hygiene or safety reasons, installing floorstanding coolers is not recommended.

The dispensing area
is no less than 29 cm
high, which enables
the placement of
bottles and flasks.

					
	Fizz	Cold	Dispensing area (mm)	Weight (kg)	Dimensions W x D x H (mm)
WALL 1 push button		•	290	7	273 x 114 x 900

WALL BUILT IN

BLULINK: SERIES INSTALLATION

In addition to being used individually, Wall can be connected in series to a single centralized unit, thus offering unlimited quantities of cold, still, and sparkling water at different dispensing points, even on different floors.

Dispensing points easily integrable into any environment, with minimal footprint and maximum silence.

BLUlink

Technical room

Technical room Here, water is filtered, cooled, and carbonated with a highly professional system and redistributed throughout the system.

All Blupura BOX models are made entirely of stainless steel, equipped with a professional carbonator. The interiors are easily inspectable to make maintenance activities more convenient and fast.
